Local businesses in your community could benefit from getting feedback from your school. Using in-app features, you can text, email, or post a message on facebook. We'll pay you \$20 and contribute \$20 to your fundraiser for every person that purchases a survey using your referral code. Redeem your personal reward via check or Amazon gift card.

How much can we earn?

We source surveys from three well established survey providers. We present participants a dashboard of surveys to choose from. Each survey shows it's estimated time to complete and associated payout. Our surveys generally range from 2-20 minutes each and payout \$0.25 - \$5.00 each.

We recently added Centiment's own inventory of Snapsurveys. These pay \$0.50 each and take about about a minute to complete.

Non-profits with just 50 participants can expect to earn \$2,000-\$5,000 per year.
We generally issues checks once a year, but can issue a check upon request at any time.
